Await Feedback

Emergency Services

New number provided

KLM reacted and was in Swartruggens after a call – Within the 40 mins used as a standard in countryside
Thank you

From Previous Experience with fire in Swartruggens town – there was no water available to e-fill the Fire Engine

Please show us what plan been made to correct the situation
Please show us where the Fire Engin can get immediately water to re- fill

Disaster Management Services

Response to natural disasters, floods, droughts and other emergencies.

We saw with the water crisis that it does not exist – What action been taken?

NS: - We can provide the municipality with layout and example if they are interested

Disaster Management Act (Act 57 of 2002)
